

BUILDEX Vancouver Recognized in Top 50 Canadian Trade Shows

May 25, 2009 – Vancouver, BC - The magnitude of Buildex Vancouver was recently recognized by *TradeshowWeek Magazine* as one of the “Canadian 50” – the largest fifty tradeshow events in the country.

The 18th annual Buildex Vancouver exposition and conference (featuring Design Northwest and The BC Construction Show), held in February, was the largest and best-attended Buildex to-date attracting 11752 industry professionals, a slight increase over the 2008 show. The event occupies over 110,000 square feet and features more than 550 product/service displays.

“This annual trade show and conference for the design, building and real estate management industries has become the major platform for industry professionals to network, educate & discover.” said Dave Tyldesley, Show Director. “It is great to be recognized by a publication such as TradeshowWeek, that compares statistics of various events across the country – it helps us measure our relevance.”

Buildex Vancouver 2010 will occur April 21-22, 2010 at the NEW Vancouver Convention Centre. Other Buildex events also run in three other markets: Edmonton, Calgary and Seattle. Visit www.buildexshows.com for more information.
